BLAIRMORE, ALBERTA, THURSDAY, JULY 13, 1911

\$2.00 YEARLY

MAR ON

General Merchant

The Berry Season is with us once again. Our customers will remember the Excellent Quality and Very Low Prices we gave last year. The season promises only a fair crop, but we have contracted for the whole output of one of the finest berry-growers in the Kootenays, and shall be in a position to give you the BEST VALUES. Last year our price per crate of 24 boxes of Strawberries was \$3.25, and we only filled half our orders. Therefore, we advise you to book your order in advance for Strawberries, Raspberries and Blackberries.

Coroner's Inquest

Coroner Pinkney held an inquest at the police barracks, Bellevue, July 6th, on the bodies of the two men killed in the mine on the day previous. The jury were Ed. W. Christie, (foreman), Robt. Connelly, Jas. Ford, F. J. Chappell, Jno. J. Walters, Steve Rosid and James Cardie; they rendered the following verdict: "That Tom Rawson and Jos. D. Pasquale came to their deaths on July 5th, in Bellevue mine, resulting from suffocation caused by a fall of debris and that in the opinion of the jury no blame can be attached to any party concerned as we consider it was accidental."

It is the opinion of this jury that the company be requested that speed of travelling from entrance to 27 chute be diminished when men are riding, and that riding from 27 chute to be discontinued except in necessary cases. J. T. Sterling, Pro. Inspector, was present during the hearing.

Right in your busiest season when you have the least time to spare you are most likely to take diarrhoea and lose several days' time, unless you have Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand and take a dose on the first appearance of the disease. For sale by all dealers.

CONSTERNA-TION AROUSED

Over Report Given out by the Director of the Geological Survey of Canada

INVESTIGATION IS DEMANDED

By The Canadian Coal Consolidated Whose Interests May Be Vitrally Affected

The report given out by Prof. W. R. Brock, director of the Geological Survey of Canada, to the effect "that the town of Frank is in grave danger of a landslide, with heavy loss of life," has caused much distress and considerable worry to a few credulous beings, but those who are not so timidly inclined and who have given the matter a few minutes of sane thought, do not fear any unpleasant result.

On Tuesday last we interviewed Mr. A. A. Muller, the general manager of the Canadian Coal Consolidated, Limited, in reference to Prof. Brock's report on the Turtle mountain and Mr. Muller said: "In order to protect the lives of the people here and their capital and the French capital invested, I am having made today an application for a board of investigation to Professor Brock and desire that the matter be thoroughly gone into. On Sunday I accompanied several others in a climb up the Turtle mountain, and from my own observations as well as from the observations of others, I found the situation absolutely identical with that of several years ago."

"Now, Professor Brock, I understand, did not make a personal visit this summer but had an inspection made by Mr. Boyd, his assistant, and I presume, that Mr. Boyd's report to Prof. Brock is the outcome of the article in question."

"The following is a copy of the lettergram sent to Professor W. R. Brock on Tuesday evening last: "In respect to your recent report under date, Ottawa, June 30th, in reference to Turtle mountain, I beg to ask for a board of investigation that the matter can be thoroughly investigated, you to appoint one party, I to appoint another and the two to agree upon the third."

"The situation demands immediate action as a large number of lives may be in danger and capital to the amount of over two million dollars. Answer at once if acceptable to you."

"Further, I beg to say that I was disappointed at your not being able to come out to Frank to make a personal visit this summer, and I would have been glad to talk the situation over so that we could arrive at an understanding."

"Your report under date, Ottawa, June 30th, has caused no small commotion and serious damage to capital invested in this place. You are probably aware that my company has spent in the neighborhood of \$100,000 on the new sanatorium, and with an article like that reported under above date in respect to Frank being in danger of a great landslide is certainly very serious to a

The Eastern Slope

The boundary of the Rocky Mountain Forest Reserve has now been located from the international boundary northward to a point due west of Lacombe. This was accomplished last summer (1910) by two parties sent out by the Dominion Forest Service. One of these, under Mr. G. H. Edgecombe, B. Sc, B. Sc. F., started at Calgary and worked northward from the same starting point. The full report of these gentlemen has just been published.

During the coming summer (1911) it is expected that the rest of the eastern boundary of the reserve will be located to its northern limit (about forty or fifty miles north of the latitude of Edmonton).

The primary aim in preserving the forests of this area is to provide a supply of timber easily accessible to the dwellers on the prairie. But there are other things, scarcely, if at all, less important, to be attended to. To users of water for irrigation and the generation of power throughout the year, and the effect of forests along streams, and especially at their headwaters, in thus regulating streamflow is well-known. Moreover, in order to keep up the level of the water in the soil throughout the prairie regions the level of the rivers must be maintained, and the flow not allowed to decrease to a mere dribble in the summertime. In the maintaining of this volume of water in the rivers the forests have an important effect.

The Twelfth at Lethbridge

About fifty Orangemen with their wives and sweethearts left Blairmore on Tuesday evening for Lethbridge to spend the glorious 12th of July in that city. The members of Wellington lodge, No. 2224, met in their hall about 7 p.m. on Tuesday, formed in procession at 8.30 and paraded to the C. P. R. depot where they boarded the train about 9 p.m. On Wednesday the battle of the Boyne was celebrated in Lethbridge by a splendid time was spent by all. The party returned home on Thursday morning well satisfied with their trip to Lethbridge.

point of view of damages.

"A. A. MULLER.

General Manager

"Canadian Coal Consolidated."

In an interview which we had with Mr. J. E. Miller we were told that there was not the slightest chance of the Turtle mountain coming down. Mr. Miller came to Frank in 1901 and was there during the big slide of 1903. Ten days after that slide, Mr. Miller climbed the Turtle mountain and took very close observations of the summit, he has made annual and sometimes semi-annual trips to the peak of that mountain ever since 1903 and he says that the conditions of things around the summit of the Turtle mountain are exactly the same today as they were shortly after that fatal slide. These words coming from such an authority as Mr. Miller should be worth taking into consideration and should largely help to remove any doubt which may yet linger in the minds of some timid and easily led creatures.

SOUTH FORK A GREAT MAGNET

Developments Disclose Great and Abundant Wealth, which needs only to be Tapped by

A MEANS OF TRANSPORTATION

To become one of the Greatest Coal Producing Sections in the North West.

The importance of the South Fork country is becoming more and more realized, and today we find that several railway companies have engineers going through that country for the purpose of finding the most feasible course through which to build a railroad.

The Southern Central Pacific Railway company have several surveyors working on a proposed route from near Lundbrock through the immense coal fields of the South Fork and then on to the International boundary line near Coulters.

Some Canadian Pacific Railway engineers have just returned from a trip through the North-Kootenay-Pass, and have expressed themselves as being highly pleased with the possibility of constructing a railroad through the valuable coal properties along that Pass.

In an interview this week with John Angus MacDonald, who owns considerable interest in the South Fork, we are informed that nine big and valuable coal properties would be extensively operated if any means of transportation were available, and a railroad from near Lundbrock through the North Kootenay Pass to a distance of about twenty miles, would reach those valuable coal properties.

Mr. MacDonald says that the coal in that section of the country is of high grade bituminous and may be very easily mined.

The South Fork country has not only an abundance of good quality steam and coke coal, but it has large deposits of fire clay. The country throughout is heavily timbered and has lots of good pulp wood so that there is a strong probability of a large pulp mill being erected there as soon as the iron horse is heard snorting in that direction. The Chicago-Alberta Oil Co. have a diamond drill at work boring for oil and indications are encouraging. The Heid Syndicate has a large number of men engaged doing general development work.

There is a rumor afloat to the effect that a railroad may be built from near Pincher city or Cowley through the North Kootenay Pass to Elk. If a line is constructed over this proposed route it will be shorter than the Crows Nest branch of the C. P. R. by about twenty-one miles.

Never leave home on a journey without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed and cannot be obtained when on board the cars or steamships. For sale by all dealers.

Stand by your Town

Stand by your town. Not a

dollar invested there but some

good comes of it. There is no

family like one's own family,

there is no wife like one's own

wife; there should be no town

like one's own town, where we

live, educate our children, on

whose streets our babies play

and where we may some day

sleep. Let the newspapers

stand by the town, and let the

business men stand by the

newspapers, and let us make

our home as famous as possible.

The following which deals

with advanced citizenship, is

taken from a recent issue of

the British Columbian, "The

Canadian Courier." Canada's

illustrated national weekly,

which is doing so much to set

Canadians thinking along

right lines concerning things

civic and national, has in

recent issues been devoting

some space to discussions on

the relation of a citizen to his

town. It is necessary to im-

press upon the average citizen

the important fact that the

efficient and economical ad-

ministration of his city or town

is of more vital concern to him

than the government of the

Dominion. The interests of

the city come nearer home to

him. For every failure or

neglect in city administration

the citizen pays in increased

taxes and diminished oppor-

tunities. The city is the em-

bodiment of the co-operative

idea, and if the progressive

corporate spirit is not abroad,

the individual citizen is a loser

in many ways.

"One writer in contributing

to the discussion in the Courier

expresses some views that are

of interest locally. No mun-

icipal government, he says, can

afford to neglect the cultivation

of the aesthetic and artistic

taste of its people. This is a

has been crowded out of this

issue, and will appear next

week.

"Canada and Her Colonies"

is the title of a book just

published by A. Branley-

Moore, member of the provin-

cial legislature of Alberta,

which treats very concisely

with the rights of Alberta to

control her own natural re-

sources. Mr. Moore has made

a practical study of affairs of

this province, and his work

gives volumes of interest to the

people of this province as well

as of Canada in general, who

may be fortunate in securing a

volume of this interesting work.

We have to thank the agents,

The Capital Publishing Co., of

Edmonton for a copy of this

book, which is a large volume

of 100 pages of large clear type.

The book is being placed upon

the market by the Capital

Publishing Co. for the really

nominal price of \$1.00, and any-

one desiring copies of this

volume, the number of which

will no doubt be limited, would

do well to order at once.

Questions sent in for solu-

tion: An inquisitive corres-

pondent wants to know which

is worse, caterpillars or grass-

hoppers? Depends on where

you have them; on the wheat

grasshoppers are worse, down

your back, caterpillars. 2.—

"Gentle Reader" wants the

tariff problem solved. Make

up your mind which way you

want it and that will be it.

3.—"An Anxious One" asks if

marriage a failure? No, not if

you secure your wedding cards

at this office. 4.—"Looking for

Trouble" wants to know when

will England have another

war? When some other nation

thinks they can whip us.

Cranbrook's 1911 Souvenir

The special commemorative

of the Cranbrook Prospector is

on our desk, which editorially

and typographically is the best

specimen of a souvenir yet turned

out in the West. Cranbrook has

a reason to be proud of this

special edition, which reflects

universal credit upon the

proprietors of the weekly

which propounds the present

and future prospects of the city

of the banana belt.

Live and Let Live

In speaking of a person's faults,

Pray don't forget your own;

Remember those with homes of glass,

Should seldom throw a stone.

If we have nothing else to do,

But talk of those who sin,

'Tis better we commence at home,

And from that point begin.

We have no right to judge a man,

Until he's fairly tried;

Blairmore Council Meets

The regular meeting of the

Blairmore Village Council took

place in Budd's Hall on Monday

night, a full attendance, includ-

ing the chairman, being present.

Minutes of previous meeting

were read and adopted.

A petition from Thomas Ede

and James Burrows was read,

asking that the water be ex-

tended from Woodward Street

to their houses on Lot 1, Block

25, and Lot 1, Block 24, respec-

tively, on Sixth Avenue. On

motion, petition was allowed to

lay over.

A letter from the McLaren

Lumber Co., re extension of

water main to the mill was

read, and secretary informed

the council that the McLaren

Co. had already been notified

of the cause of delay in this

matter.

An application was received

from R. W. Coulthard, to have

water pipes extended to his

dwelling. Ordered filed.

Letter from the Provincial

Board of Health, re account of

Dr. McKay in connection with

recent small pox patients, also

the city of Lethbridge in same

matter were read. On motion

by H. E. Lyon, sec, by L. Dutil,

hills were ordered paid.

Communication from J. E.

Richards, government printer,

re advertising in Alberta

Gazette relative incorporation

of Blairmore, was ordered filed.

Communication from Board

of Railway Commissioners re

crossing C. P. R. at Eighth

Avenue, was read. Chairman

was authorized to furnish

necessary plans and profiles for

the work.

Secretary was instructed to

inform the department of the

interior of the visit of sur-

veyors, and that the cemetery

grant had been surveyed and

defined and was now ready for

fencing. Council would forth-

with ask for tenders to proceed

with the work of enclosing the

grounds.

Prayer—Lyons, that the

secretary ask for tenders for

the construction of 3500 feet of

2-point wire fencing, around

the south and west sides.—

Carried.

An account from Dawson &

Green was read and ordered

referred to the water com-

mittee, and if found correct,

paid.

Two bills from T. P. Cyr in

connection with the removing

of the Mercantile Hall were

read, and on motion by H. E.

Lyon, sec, by L. Dutil, same

Happenings in and Around Frank

Mr. and Mrs. E. E. Brown, of Spokane, spent Sunday in town.

T. D. Brown, of Lethbridge, spent the early part of the week in town.

R. E. Beattie and P. F. Patrick, automobilists from Cranbrook, took on Sunday.

Mrs. Staunton and the Misses Donald were up from Gillingham this week.

P. J. Jennings of the irrigation department of the Alberta government, is in town from Calgary.

A. Muller, general manager of the Canadian Coal Consolidated, was in Lethbridge on Friday last.

Ice cream and refreshments will be served on the verandah of the inside of the Rocky Mountain Sanatorium every Sunday and Wednesday.

Mrs. A. Rosen and Miss J. L. Darks, of Jaffray, returned home on Tuesday evening after spending several days at the Rocky Mountain Sanatorium.

For summer diarrhoea in children always give Chamberlain's Colic, Cholera and Diarrhoea Remedy and castor oil, and a speedy cure is certain. For sale by all dealers.

Quite a large number of our citizens have climbed the Turtle mountain during the past few days and have all returned satisfied that there is no danger of another slide.

Miss E. Olson left on Tuesday evening for Montana where she has accepted a position as head waitress in a large hotel at a famous summer resort. A large number of her friends were at the depot to see her off.

W. Simpson, who was successful at the examination for first-class engineers, held recently at Lethbridge, has accepted the position as master mechanic with the Canadian Coal Consolidated.

Rev. J. P. Westman, travelling secretary for the Methodist Sunday schools and Young People's societies, arrived in Frank on Wednesday morning and met the Sunday school scholars and workers in the church in the afternoon when the reverend gentleman delivered a very pleasant talk. A public meeting was held in the church in the evening and an able address on Sunday school work was given by the visitor. Rev. Mr. Westman left on Thursday for the East.

Here and There

The Grand Aerie convention of the Fraternal Order of Eagles will be held at San Francisco on August 21 to 28. This great gathering of the order will be held in the new home of the Aerie No. 5 at San Francisco.

Macleod property is booming and several real estate offices have recently been opened up in that town and they are all doing a big business. Several of our citizens have, during the past week or so, invested money in Macleod, and that their investment has been a wise one seems very plain to those who have watched the trend of things in that town.

Montreal, July 9.—That aerial geography may shortly assume a place with the other text books now employed in schools is suggested by the fact that the first official air maps ever prepared in this country are now being drawn and charted here. The task is an enormous one and when completed will provide maps and charts undreamed of a few years ago. Some idea of the scope of this new aerial geography may be gathered from the fact that it will show all the air currents and air routes of this country most favorable to aeroplans.

Passburg Notes

F. M. Fowler has just completed a large cellar under his pool room.

The Little football eleven paid us a visit last Wednesday and in a well-played game beat our local chaps by a score of 3-0.

This "Burg" is sure booming in spite of the gloomy coat upon other towns, done by the presence of the miners' strike.

Work on the coke ovens is progressing well and soon this splendid range of ovens will be in readiness for the production of coke.

All round us we hear talk of extensions to business blocks, erection of new stores and dwelling houses, and such and such, which seem to verify the belief entertained by many old settlers and new comers that Passburg has a remarkable future in store.

Mr. Fowler, our amateur photographer has just finished some beautiful views of Redfern's Lake. It is well worth the while for anyone who has not yet visited this beautiful haven to just go there and enjoy the beauties of creation and recreation. The lake at present has a magnificent appearance, which even the photographic artist must fail to fully represent.

Of late several public meetings have been held, and the matter of a railway station and other necessary utilities have been freely discussed, and we learn the government is being strongly petitioned to have Passburg made a railway head quarters. Some of prominent mining and business heads of the town are enthusiastic over the propositions as set forth, and it is to be hoped that their anticipations will be realized to their fullest.

Mr. Davis has purchased several lots from James Redfern and is erecting a number of cottages thereon. Mr. Davis, who is a recent arrival from the old country is a strong believer that this Burg will very soon be one of the most important towns in Southern Alberta. Mr. Davis is coal inspector for the G. N. R. and states that some of the finest specimens of coal, in veins measuring six to eight feet in thickness and extending over many miles have been brought to light. Most of this is equal in quality to the world-renowned Welsh coal, and is so located as to be very easy of mining.

Accident at Bellevue

An accident which came very near being fatal, occurred at the Bellevue mine on Saturday last when H. Blake was crushed between a dinky and a chute. Three ribs were broken and his shoulders badly crushed. He was immediately taken to the doctor and it is believed that with the care of Bellevue's local physician, Mr. Blake will soon recover.

Calgary Exhibition a Big Success

A large number of our citizens took in the exhibition at Calgary last week and returned home well satisfied with their stay in Alberta's leading city. The management of the exhibition spared no pains in making the affair one worthy of considerable attention and of much favorable comment. We have not heard one person make an uncomplimentary remark regarding the Calgary exhibition but they are loud in their praises of the splendid manner in which the whole affair was conducted.

Happenings in and Around Bellevue

Mr. Jepson and J. A. Walters, of Spokane, were in town on Friday and were registered at the Southern hotel.

Mr. and Mrs. Allsop, F. Chappell, A. Padgett and A. Watson went to North Fork on Sunday last to spend a few days fishing.

Edward Coupland went to Fernie on Saturday, as a delegate from Bellevue to attend a meeting of the Crow's Nest Pass Football league.

We are pleased to learn that Mrs. H. Fisher, of Bellevue, has given birth to a little daughter. Both mother and child are doing well.

Sprains require careful treatment. Keep quiet and apply Chamberlain's Liniment freely. It will remove the soreness and quickly restore the parts to a healthy condition. For sale by all dealers.

The Bellevue first team visited Michel to play for the Crow's Nest Pass league. There our stars met their first defeat for the season and the game resulted in 3-0 in favor of Michel.

A meeting of the Bellevue and district football league was held on Sunday last. Representatives were present from Bellevue, Hillcrest, Lillie, Burnis, Lundbrook and Passburg.

At Coleman races on Wednesday of last week, W. H. Chappell was successful in getting first prize in the 3-8 mile race and first prize in the quarter mile race, with his horse "Queen of the Woods." Clifford Miller got the first prize in the consolation race with his horse "Rusty." Edward Boseley was the rider of both horses.

The Rev. Mr. Irwin, the pastor of the Methodist church, has started a Bible class for young men. All the young men in the camp are given a hearty invitation to attend and to take part in the study of the moral and social sides of life. This class meets at 2 o'clock on Sunday afternoons. Mr. Irwin's subject for next Sunday will be "Athletics."

On Wednesday of last week, Bellevue played Hillcrest the return football match, for the Bellevue and District league at Bellevue. Hillcrest won the toss and kicked down hill. In the first half Fraser and Jones put in a goal each for Hillcrest. After half time the game grew more exciting and when near the end Roches scored for Bellevue, thus making the result 2-1 in favor of the visitors.

A Boom is Imminent

Speculation is rife in financial and commercial circles as to the meaning of the heavy buying which has been taking place recently of the bonds of the Amalgamated Asbestos Corporation, Quebec, as is known, produces nearly ninety per cent. of the whole asbestos supply of the world, and is one of the province's most valuable assets. Efforts have been made time and again to obtain control of the output and an even more determined effort is apparently being made now. The buying is being done quietly and appears to emanate from the United States, the city of Philadelphia in particular. It may be that this is another attempt of the wily Yankees to get their grip on another of Canada's "national heritages" or it may be that it is merely a movement on the part of these on the "inside" to buy up on the strength of information which leads them to believe that a boom is due in the industry.

IN THE MATTER OF THE ESTATE OF SAMUEL BEATHROCK, late of the Village of Frank, in the Province of Alberta, deceased.
NOTICE IS HEREBY GIVEN that all persons having any claim or demands against the late SAMUEL BEATHROCK, who died on the 15th day of December, 1912, at Frank, Alberta, are required to send in to THE TRUSTS AND GUARANTEE COMPANY, LIMITED, at Calgary, Alberta, a statement of their claims in writing and a statement of their accounts and the securities (if any) held by them, and such statement shall be verified by Statutory Declaration of the claimant's oath.
AND TAKE NOTICE that after the 15th day of July, 1913, the said THE TRUSTS AND GUARANTEE COMPANY, LIMITED, will proceed to distribute the assets of the said deceased amongst the persons entitled thereto, having regard only to the claims or demands of the 15th day of January, 1913, and that any claim or demand not so verified and presented by the 15th day of July, 1913, will be barred and no account shall be taken of such claim or demand.
DATED AT CALGARY, this 15th day of July, 1913.
THE TRUSTS AND GUARANTEE COMPANY, LIMITED.
HARRY C. MOORE, Public Administrator.
Solicitor for the said Company. V-13-1.
